

Model PR12

Automatic Patty Forming Machine

UL EPH Classified NSF/ANSI 8 Commercial Powered Food Preparation Equipment

Height: 26"

Motor: 1/3 HP

Depth: 24"

Volts: 115

Width: 32"

Amps: 13

Weight: 170 lbs

Cycle: 60

Production: 1200 per hour standard

Mold Plate: Up to 3/4" thick in any shape

FACTS AND FEATURES OF THE PR12:

- Stainless steel cabinetry
- Volume and pressure controlled simply with the location of a single ring pin
- Interleaves paper between patties
- Stacks patties perfectly
- Reload paper without stopping the machine
- Riser Platform complete with receiving slide for increased stacking and easy cleaning
- Exclusive patented gentle feed mechanism
- Save time and labor
- Simple operation
- Controls production cost
- Quick disassembly for easy cleaning
- Built in circuit breaker
- 1 year parts warranty

QUICK MOLD PLATE CHANGES

The convenient attachment of the connecting arm allows for quick and easy mold plate changes

UNEQUALLED IN PRICE AND UNPARALLELED IN PRODUCTIVITY

The PR12's low cost gives you a quicker payback on your investment

SIMPLICITY AND DURABILITY MEANS LONGEVITY FOR THIS PATTY FORMING MACHINE

The single shaft drive mechanism has no chains, sprockets, ratchets, or timing belts
